

Environment Friendly • Saving Energy & Cost

GCP84

- GCP84 multifunctional gas control is rated for gas "N.G" and "L.P.G"
- Main valve function to model GCP84 :
- Shut-off and low to high (GCP84/31)
- Low to high (GCP84/32/S)
- Low to high modulation (GCP84/33)

GCP84

DESCRIPTION

The GCP84 multifunctional gas control according to national Iranian standard number 4512 & EN126. Typical applications are: space heaters, fireplaces , storage water heaters and catering

FEATURES

- Compact design
- Integrated piezo igniter
- Easy operation
- Separate temperature knob
- Stand – by position independent of temperature setting
- Thermoelectric flame-failure device
- Interlock prevents inadvertent re-ignition
- Pressure regulator
- Temperature system with bulb and bellows
- Min. rate setting with fixed or adjustable orifice
- Pilot gas adjustment screw
- Pilot flow filter
- Screen in gas inlet area
- Inlet / outlet connection at bottom, side or both
- Mounting attachments at bottom and side

USING THERMOSTATIC CONTROL VALVES :

- MOVING TOWARDS OPTIMIZING FUEL CONSUMPTION
- REDUCING FUEL COST
- REDUCING FUEL CONSUMPTION

IT'S A RELIABLE CONTROL
